

BLACK TONE SERIES

Introducing - NANO CHARCOAL TONE TECHNOLOGY

For years, Window film manufacturers have searched for ways and means to go to the next level in window film design and technology. Finally, the search is over. Black Tone Series window films combine the durability of carbon, modify its heat rejection ability and incorporate it into the latest Fusion technology. The result is a film that is outstanding in its ability to block the heat from the Sun, extreme durability to withstand fading and discoloration and its exceptionally good-looking colour.

- PRODUCT KEY FEATURES -

- Privacy, Driving Safer & Relax
- IR Heat Rejection
- Smart Tag & GPS Friendly
- Enhance Looks & Style
- Great UV Rejection

Why Choose

BLACK TONE SERIES

Car owners now do not have to worry about dementalization, fading or discoloration of their window films.

The window film industry has been through cycles of evolution and now, Black Tone Series is bringing automotive window films to the next level. Neither a dyed film nor a metal film, Black Tone Series the next generation of super performance film that does not fade, discolour or lose its heat blocking performance.

Black Tone is constructed by the fusion of modified carbon into the polyester resin. This polyester resin is then "melted and pulled" into polyester window films. This advance technology is the first of its kind in the world.

Black Tone Series automotive window film is truly bringing window film to the next level.

WHAT'S IN IT FOR YOU?

- Signal-friendly for GPS and satellite radio systems
- Higher heat rejection performance than any other window film of its kind
- Exceptional Performance – superb heat rejection performance and UV protection
- Great Durability
- Aesthetic Appeal – classy and appealing colour

SUITABLE FOR YOU?

- Affordable Price
- Prefer Clarity Vision
- Heat Intolerance
- Less Glare
- A Cooler Interior Climate

BONUS

- 6 years of performance warranty
- 4 years of colour durability warranty
- 4 years of heat rejection lifespan

WHO ARE WE?
